# CURCUMIN IV

Discover the benefits of this acclaimed  
**ANTI-INFLAMMATORY** therapy!

## What is Curcumin?

Curcumin is the main active ingredient found in turmeric, known for its anti-inflammatory and as a powerful anti-oxidant, it has many benefits for various health conditions, from delaying aging which is a result of increased inflammation in the body boosting brain-derived neurotrophic factor, regulating blood sugar, fighting viruses and infections, Leaky Gut and IBS, Crohn's Disease and Rheumatoid Arthritis.

## What Is the Best Way to Take Curcumin?

The curcumin content of turmeric is only around 3% and as a result, is poorly absorbed into the bloodstream. Taking turmeric as a spice or in a tea is not an effective way to reap the health benefits of curcumin. When taken intravenously,

## Benefits of Curcumin

**Treats autoimmune disease**

In recent studies, curcumin shows impressive results for treating many conditions of autoimmune disease, including Rheumatoid Arthritis, Multiple Sclerosis, Psoriasis, leaky gut, etc. Curcumin regulates inflammatory cytokines and sends signals to activate immune cell communication.

## Supports treatment for diabetes

Curcumin can decrease glucose levels in the blood and symptoms associated with diabetes.

A 2012 study published by the American Diabetic Association's journal reported results that 120 pre-diabetic patients who were given curcumin did not develop diabetes. Also after three months, there was a significant improvement in blood glucose, HbA1C level as well as insulin resistance and pancreatic cell function.

## Supports cancer treatment

Curcumin potentially helps to shrink tumors and prevent cancer cells from spreading to other parts of the body. Curcumin can reduce inflammation and can enhance chemotherapy effectiveness while protecting healthy cells from radiation and chemotherapy.

# What Makes IV Drip Therapy So Powerful?

## **Direct to Your Bloodstream**

Skip the gut! Our IV drips deliver essential vitamins and minerals straight into your bloodstream for rapid, effective absorption.

## **Performed by Licensed Nurses**

Relax and recharge with confidence - every treatment is safely administered by experienced, registered nurses

## **100% Nutrient Absorption**

Bypassing digestion ensures your body receives the full benefit of every nutrient - nothing is lost in the process.

## **Quick & Hassle-Free**

Each session takes just 20-45 minutes. No downtime. No stress. Just pure wellness on demand

## **Better Than Oral Supplements**

IV therapy bypasses the liver's metabolism, preserving powerful nutrients that are often broken down when taken in pill or liquid form — ensuring maximum benefit.

# FAQ

Q1: Do you offer service all over Phuket?

A: Yes! We provide mobile IV drip services across Phuket, including popular areas like Patong, Rawai, Kata, Chalong, Bangtao, and more. Whether you're staying at a hotel, villa, or home – we'll come to you.

Q2: What are your service hours?

A: We operate 24 hours a day, 7 days a week. You can request an IV drip anytime, day or night.

Q3: How fast can I get an IV drip after booking?

A: In most areas, we can reach you within 45–90 minutes. For remote zones or during peak hours, we recommend booking in advance.

Q4: How long does an IV Vitamin Therapy session last?

A: Most sessions take between 40 to 60 minutes, depending on the treatment type and infusion rate. Our medical team will monitor you to ensure a safe and comfortable experience.

Q5: Are there any side effects?

A: While rare, some people do experience cooling of the skin, a tingling sensation, and a possible mineral taste in the mouth: this is all completely normal and safe. These sensations will lessen with regular IV sessions.

Q6: Can IV Vitamin Therapy be combined with other treatments?

A: Yes! IV Vitamin Therapy can be combined with other wellness treatments. Please discuss your overall health plan with our team to ensure safe and effective integration.

Q7: Can I book for a group or family?

A: Yes! Group bookings are welcome — and we often offer group discounts. Ideal for wellness retreats, post-party recovery, or family recharge.

Q8: What should I do after treatment?

A: After your session, you can go about your day as you would normally. There are no restrictions. We recommend that you exercise, eat healthy meals, stay hydrated, and get enough rest. Alcohol consumption should be moderate.
